

Sims Recycling Solutions Named as One of the Global Top 100 Most Sustainable Corporations in the World

March 22nd, 2010 - Sims Recycling Solutions' parent company, Sims Metal Management, has been listed as one of the Global Top 100 Most Sustainable Corporations in the World for the second year running. The list, compiled by sustainable business publication Corporate Knights, was announced at the 2010 World Economic Forum in Davos, Switzerland.

The Global Top 100 Most Sustainable Corporations list identifies companies which consistently demonstrate superior leadership and performance on a range of environmental, social and governance policies relative to their industry peers.

Companies on the list are considered better equipped than their competitors to thrive and succeed in the longer term due to the sustainable approach used to manage their business.

Group Chief Executive Officer Dan Dienst commented: "Sims Metal Management's inclusion is testimony to the Company's commitment to, and effective management of, the societal, environmental and governance factors impacting our business. We strive, as in all things, to do the right thing and always with a sense of urgency. Doing good and doing well are not mutually exclusive propositions at Sims Metal Management."

Other criteria used in compiling the list include ethical and responsible decision making, recognizing the interests of stakeholders, respecting the rights of shareholders, and communication with customers, investors, regulators and policymakers. Taken together, these factors mark the company out as one of the most sustainable enterprises in the world, both environmentally and in terms of financial performance.

About Sims Recycling Solutions

Sims Recycling Solutions is the world's largest electrical and electronics recovery and recycling company with 37 sites across the globe.

Sims Recycling Solutions recycles all types of electronic equipment and enables businesses to meet both their social and legal obligations in the treatment of surplus electronics. The company's asset management and recovery service enables businesses and public sector organizations to sustain the value of IT and electronic equipment, in a legally compliant, data secure, fully traceable and environmentally sustainable manner.

In North America, Sims Recycling Solutions operates 11 sites in Arizona, California, Florida, Illinois, Nevada, Ontario, South Carolina and Tennessee.
